Important Update

October 26, 2009

Brothers and Sisters:

Hawker Beechcraft has requested meetings on a variety of topics which the Union has continually reported to our membership. We have met and will continue to meet and discuss these topics.

Topics include jobs, training, outsourcing, the future of Salina, various product lines and what Hawker Beechcraft considers to be their core business are just some of the topics being discussed. Some of these issues are being addressed daily by your Union leadership through the grievance process. If these ongoing discussions produce anything outside of the current contract language it will be communicated to the membership and voted on. **OUR MEMBERS HAVE THE FINAL SAY!**

It would be irresponsible of us not to engage in talks with Hawker Beechcraft regarding these important matters. We have requested information that we believe is necessary to enable us to have further discussions with the company. It's in the best interest of the membership that we have all the information we need to analyze and discuss these important topics. We realize the unknown creates anxiety for our members, their families and the community at large.

We know there are many rumors and media reports regarding the aerospace industry, however, we will communicate with the membership once all of the information has been analyzed.

We are committed to protecting the future of our members and their families.

In Solidarity,

STEVE ROONEY

President/Directing Business Representative
