

# KANSAS

Legislative Bulletin - March 1, 2010

A Kansas state legislative committee is discussing a resolution to alter the Kansas Constitution. House Concurrent Resolution No. 5032 would seek to force Kansans to fight for their health care. That's right, in all their wisdom, a Kansas legislative committee is considering a constitutional amendment to force an election in our state on one of the most important issues before congress in decades. Many Kansans in need could stand the chance of being denied the health care congress is seeking to adopt for the nation.

Contact the following House Representatives and ask them to please don't isolate Kansas from the health care fix. It is certain to be one of the most out of control issues ailing our country today. Ask them to not make Kansas a backwards state and afford Kansans the same opportunity as the rest of the nation. With skyrocketing health care costs we don't deserve to be left out in the cold!

Here is a list of committee members we hope you will contact asap. A simple short message to reject this proposal is in order. Ask them to please vote against HCR 5032. Will You Help?
