

MEMBERSHIP UPDATE

Brothers and Sisters,

Hawker Beechcraft has notified your Negotiating Committee that they plan to have a final offer on the table for the membership to vote on by October 9th, therefore we will schedule a vote on that day.

At this time, we don't know what that offer will consist of. As we get closer and get more information, we will keep you informed. There isn't much information to give to you right now, as we don't have the full and final offer yet.

As we've communicated before, this will be a simple yes-or-no vote. If the contract is accepted by fifty percent plus one, it will replace our current contract. If it is turned down, we will continue under the current contract until next year. However, HBC has made clear that the future footprint of Hawker Beechcraft in Wichita will depend upon the outcome of the vote.

There will not be a strike vote taken, as we cannot strike until the current contract expires.

Thank you for your patience, support and solidarity.
